

To access your credit card transaction history and statements...

From a laptop, desktop, iPad, or other tablet:

Log into your Online Banking account at **my.fourseasonsfcu.com**

In the top grey bar, click or tap on the **Manage Cards** link.

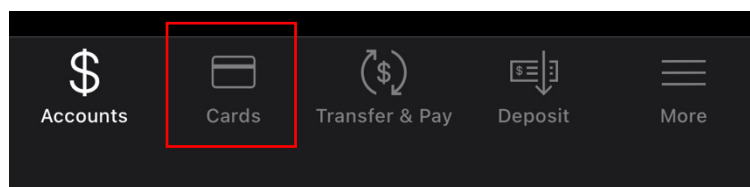

Now you can view your transaction history, view your credit card statements, secure your debit and credit card, and more!

From a smartphone:

Log into your NexGen Mobile Banking app.

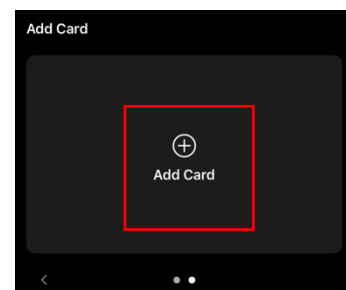

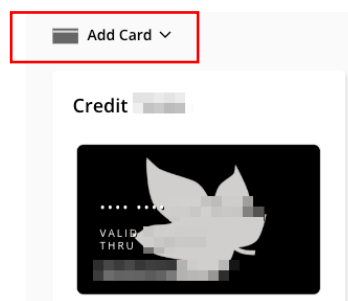

At the bottom of the screen, tap the **Cards** button.

Now you can view your transaction history, view your credit card statements, secure your debit and credit card, and more!

Please note that this option is not available when using NexGen Mobile on a Samsung Galaxy Fold, Pixel Fold, iPad, or other Android-based tablet. You must use the Laptop or Desktop instructions above to view your credit card history.

If you have multiple credit cards on your account, the new system will only import the first credit card automatically. All others must be added manually. Click the **Add Card** drop-down in Online Banking, or swipe your card list to the left until you see the **Add Card** tile in Mobile Banking. Follow the prompts, and your secondary cards will be added too!
